

# Getting Started

## Android Wireless Guide

**Step 1:** Click on the 'Settings' button.

**Step 2:** Ensure the Wi-Fi button is green.

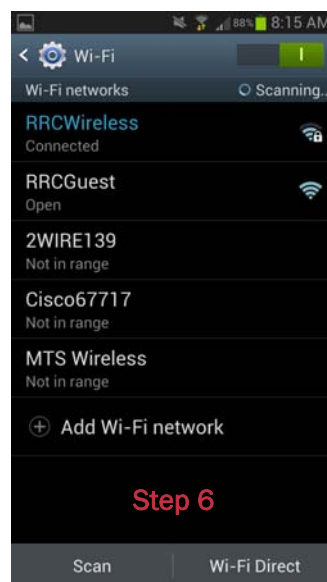

**Step 3:** Click on the word 'Wi-Fi'.

**Step 4:** A list of available networks will appear. Select 'RRCWireless'.

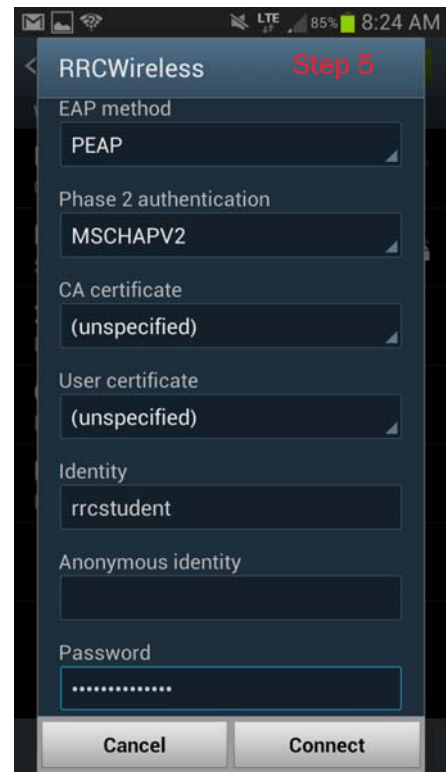

**Step 6:** Click the 'Connect' button.

**Step 5:** Set up security settings:

- EAP method: **PEAP**
- Phase 2 authentication: **MSCHAPV2**
- Identity: **Your RRC Username**
- Password: **Your RRC Password**

**Please note:** You can leave CA certificate, User certificate, and Anonymous identity blank. Also, if you want to ensure that your password is correct, you can check 'Show Password' at the bottom.

**Please note:** Once you have completed Step 6, the text under 'RRCWireless' will show 'Connecting'. The text then should change to 'Obtaining IP address'. When the text finally shows 'Connected', you are now connected to the College Wireless network.
